★★★★★ 5 out of 5 Stars

"I cannot say enough good things about Gold Star Plumbing. Each and every person I worked with from this company has been beyond wonderful, responsive, professional and just all around fantastic to deal with. We had to have both of our AC units replaced. Gold Star by far provided the best price as well as immediate installation. The installation workers were wonderful and very efficient. I will be recommending Gold Star to anyone and everyone I know who is in need of their services!! They are definitely a top notch 5 star+ company!"
